September 2, 2025, 13:55-18:00

Room 737, 7F of Tower B

Aoyama Gakuin Univ., Sagamihara Campus

L. De Cola

M. Kato

T. Yaita

A. Ishii

13:55-14:00 Open sesame Miki Hasegawa

14:00-14:50 Luisa De Cola, the University of Milan, Italy
Luminescence and electroluminescence of metal complexes as tools
for diagnostics sensors

15:05-15:45 Masako Kato, Kwansei Gakuin University, Japan
Photoactive soft crystals based on assembly-induced luminescence
of platinum(II) complexes

15:45-16:25 Tsuyoshi Yaita, QST & JAERA, Japan
Unexpected Einsteinium Break in Actinide Contraction

16:25-17:05 Ayumi Ishii, Waseda University, Japan
Spin-Induced Optical Functions in Low-Dimensional Organic-
Inorganic Hybrid Materials

17:05-17:50 Rising star talks by Dr. Nikita Madhukar and Reo Ohno
and Free Discussion

Organizer : Miki Hasegawa, hasemiki@chem.aoyama.ac.jp
